

Accolade Competition Deadline: November 20, 2005

Best of Show

Jazz & Syd Productions, *Motherless Child*, dramatic impact, a granddaughter explores how the 1960 suicide her grandmother forever changed the lives of her thirteen aunts and uncles. This amateur's documentary records emotional accounts of how her grandfather forced his children into modern day slavery and child prostitution. While the production is technically flawed, this is storytelling at its best.

You're The Star Productions, *Kim & Enrique: Our Wedding*, weddings, is a creative and beautifully filmed wedding production. Wedding videography presents technical challenges regarding lighting and sound and creative challenges regarding storytelling and capturing personalities in a warm and concise manner. Producer Harlene Conlin demonstrates mastery of the craft.
